LAWRENCE COUNTY ROAD DEPARTMENT

P.O. Box 275
Moulton, Alabama 35650

December 15, 2014

Dear Timber Owner,

I wanted to make you aware that the Lawrence County Commission recently voted to create a new logging notice system as authorized in Ala. Code § 23-1-80.1. This code section, enacted during the 2012 session of the Alabama Legislature, sets up guidelines so that timber owners and loggers will find greater consistency in requirements from one county to the next across the state.

Here in Lawrence County, we believe the new ordinance will help us preserve the condition of our county roads, which are so important to citizens and industry alike.

Enclosed with this letter you will find a copy of the ordinance along with a copy of the notice form we will be using. Additional copies of the form are available www.lawrencecountyal.org/road.html.

The county commission set an effective date of January 15, 2015 for the new notice ordinance, and we wanted to make sure you knew about it in advance.

Feel free to contact me if you have any questions about the implementation of this new ordinance. I can be reached Monday through Friday at (256) 974-2478 between the hours of 7:00 a.m. and 3:30 p.m. If you prefer, you can always send email to bduncanlawco@aol.com

Sincerely,

A handwritten signature in blue ink, appearing to read "Ben Duncan", is written over a light-colored rectangular background.

Ben Duncan
Lawrence County Engineer
